What have we been learning?

This week in English we have been busy planning our persuasive letters to Farmer Brown. We need to convince him to give the animals the things they need to make them happier on the farm. We have been thinking about the animals problems and how they can be resolved. We have been applying our grammar skills thinking of adjectives ending in 'y' that we can use in our letters, along with the co-ordinating conjunctions 'and', 'but' and 'or'. Our plans are looking great with lots of detail ready to help us write our letters next week.

In Maths we have been applying our knowledge from Year 1 to answer mathematical questions in a quiz, we are really proud of how well the children challenged themselves.

In Art we have started to apply our drawing skills to create our final landscape artwork in the style of David Hockney. We thought carefully about perspective by adding objects in the foreground, middle ground and background.

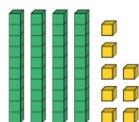

In P.E we have been developing our balls skills, focusing on throwing and aiming.

Next Week

In Maths, we will be adding a two digit number and tens, we will be using dienes and jumps on a number line to help us with our understanding.

In English we will be using our plans from this week to help us write detailed persuasive letters to Farmer Brown, we will be using adjectives ending in 'y' and coordinating conjunctions (and, or, but).

In Art we will be adding colour to our David Hockney inspired landscape pictures using wax crayons. We will be adding tones and shades and drawing techniques.

In P.E we are focusing on ball skills in games, developing our throwing and catching skills.

Home learning

Home learning has been set on Mathletics this week, please support your child to complete any learning they been allocated.

Please support your child to practice their spellings each week, they will be assessed on Thursdays.

All the children have been set up on Times Table Rock stars and have been allocated either the 10 times table or the 5 and 10 times table. It is still early days but the children can begin to use the resources to develop their multiplication skills.
