### What have we been learning?

What a busy week we have had in Jet Class!

We had a great day on Tuesday for the Number 8 Maths Day, which the whole school took part in. The children were set 3 challenges all linked to the number 8 and they did a great job solving them and applying their mathematical language.

In science, we carried out a fair test for Iggy Peck, to find out which material would be best for him to use for the roof of his new building. We need to make sure that the material would be waterproof. The children made predictions before testing and recorded their results in a table.

The children all did fantastic in our speech and language activity this week and had clearly all worked hard at home learning the poem 'London Bridge is falling down'. They all spoke clearly, in a nice loud voice with great expression- Well done Jet.

## Next Week

In maths, we will be continuing to look at fractions and concentrating on  $\frac{1}{4}$  of shapes and quantities.

We will be having our visit to the church, where we will be talking with the vicar and finding out more about what happens inside.

Next term, we will be having a music and IT focus where we will be looking at programming.

In PE, we will be starting a term of Yoga.

## Other News

### Homework

Over half term, the children have been set a number of Mathematics activities which link to what we have been learning in maths during Term 3. They also have had some books allocated on bug club.

### Aspiration Week

Aspiration week starts 24<sup>th</sup> February  
We would love for you to come into school and talk to the children about your job. Please let us know if you available.
