What have we been learning?

We have had a busy week in Jet Class and have spent our English lessons writing a recount of our class trip around Wickwar last Friday. The children were fantastically well behaved and were a credit to our school. They had great fun completing a Scavenger Hunt and learning lots of local history along the way!

In Maths we have continued to extend our learning and understanding of multiplication and how we can represent multiplication in a variety of ways.

In RE the children have been learning about what it means to be a Christian and how Christians practice their faith. The children have enjoyed class discussions around this and reflecting on how not everyone may hold the same beliefs as they do.

The children were inspired in DT by their learning on sculptures last week. We have enjoyed watching them be creative at playtimes this week and creating some amazing sculptures of their own!

Next Week

In Maths we will continue to develop our understanding of multiplication and applying our skills to multiplying by 2, 5 and 10. We will further demonstrate our knowledge by problem solving.

In English we will read our new class text *The Three Little Wolves and the Big Bad Pig* which tells the traditional tale from a different perspective.

Home Learning

Please continue to support your child with their home reading and by practising the phonics screening sheets coming home tonight.

Important Dates

Phonics screening meeting
Friday 20th May
@ 9.10am
