

Jet Class Newsletter

What have we been learning?

Welcome back after all the snow! It's great to be back up and running and getting on with our super learning.

In English we have been completing our fabulous recounts from our trip to the SS Great Britain, and finishing our diary entries. We have been challenging ourselves to use loads of conjunctions, commas, adjectives and even apostrophes! You'd be really impressed!

We have also been investigating 3D shapes and symmetry this week, and undertaking some investigations to help Isambard Kingdom Brunel name 3D shapes and their properties.

In Computing this week we have been writing our own algorithms and solving some tricky algorithm problems to draw shapes using bebots. Some of the bebots need batteries so a few of us will have a go next week.

In DT we have designed and started to build our own trolleys using tools to saw and stick the wood. You'll get to see these on display at our coffee morning. We have also written some of our own lines to one of the sea shanty songs which you'll get to hear.

Next Week

In Maths we will be looking at fractions

In English we will be writing a recipe to make biscuits.

In Science we will be using our boat designs to create and test the materials we have chosen. Thank you for our junk modelling parents!

In Computing we will continue to look at solving algorithms.

Spellings will be tested on Thursday this week.

Important information

Thank you for all the offers of help for the biscuit making, coffee morning and with reading and spelling. It is really appreciated. However, a slight mistake on the newsletter, we're looking for a Tuesday helper! If you're free on a Tuesday morning and willing to help, please let us know.

On Wednesday March 14th we are holding our end of project celebration. It will begin at 10am and we will be serving tea, coffee and biscuits for a donation. We will also have the children's artwork for sale too.

SATs Meeting

Jet Class Newsletter

We will be holding a meeting for parents first thing on Thursday 22nd of March to go through the end of key stage assessments and how they will be carried out in school. It really is nothing to worry about, but if you'd like some more information/ have some questions, please come along to Jet Class.
