

## Jet Class Newsletter

16.03.2018

### What have we been learning?

It's been another busy week in Jet Class. We finished constructing our model trolleys by adding the axels and wheels and the extra parts we needed following our designs carefully.

We designed and made biscuits for our Project outcome coffee morning which we hope you all enjoyed. We measured out the ingredients using standard units and then wrote detailed instruction on how we made the biscuits using imperative verbs.

We loved sharing out learning with all our adults during our project outcome coffee morning, thank you so much for all your generous donations toward resources for our immersive environment and our donation to the SS Great Britain. We raised £110 which is absolutely amazing!

#### Next Week

In maths we will be continuing to develop our fraction skills, learning about fractions of amounts and set and solving challenges and reasoning.

We will be writing a letter to the SS Great Britain to accompany our donation money and letters of thanks to the Shanty men for our fantastic workshop.

#### Important information

SATs meeting on Thursday 22<sup>nd</sup> March @ 9-930am in Jet Class.

Parents evening - Please make sure you have signed up for parents evening.

Wednesday 21<sup>st</sup> March  
Thursday 22<sup>nd</sup> March
