

Jet Class Newsletter

What have we been learning?

This week in Jet class we have been busy planning our next story- a twist on Hansel and Gretel, using our own characters. We have created wanted posters for our characters and we planned our stories on an s map. We then used these to retell the story to our friends and the class, practising our story language and clear speaking.

We have also been developing our science skills this week: observing our sunflower experiment, sorting and classifying objects and starting an explanation booklet about the life of a sunflower by drawing its life cycle.

Jet Class Newsletter

Next Week

We will be using our planning to write our own version of the story of Hansel and Gretel. We will be applying all the English skills we have learnt this year.

In maths we will be continuing to master our mental maths skills through addition and subtraction.

In science we will be creating an explanation text all about the life of a sunflower, and linking it to our mini outcome 'How does it grow?'

We will also be applying the music skills we have developed during this project to work towards our magical music outcome 'What can you hear?' We hope to create a piece of music to perform during our Enchanted forest project outcome.

Important information

We need helpers to support the children with their sewing skills to make felt owl keyrings. If you are available any day or time please let us know.

Sports day - Tuesday 26th June.

Reserve sports day - Friday 29th June.

Enchanted forest project outcome for Jet and Emerald classes – Thursday 12th July (pm)

Infant disco – Tuesday 17th July 4.45-5.45pm
