What have we been learning?

We have moved onto our new class story 'Tiddler' this week. We have used the pictures in the story to imagine that we are divers exploring under the sea. We used our 5 senses to describe what we could hear, see, hear, smell and taste. We used our knowledge of adjectives to describe the nouns and extended our sentences with 'and'.

In maths we have been using tens frames, numicon and part whole models to find number bonds. In Daily 10, we have been developing our mental maths recalling number bonds to 10.

We are really enjoying developing our collage skills in art, we have practised creating our collage mermaid/mermen tails in our sketchbooks and are ready to create our final tails. Today we put the finishing touches to our collage backgrounds.

Next Week

In English, we will be planning our own adventure for Tiddler using storyboards.

In maths we will be focusing on less than a given number ready for subtraction the following week,

In art, we will be constructing our mermaids/mermen tails using collage materials ready to add to our collage sea backgrounds.

IN Geography, we are going to be learning about compass directions.

Home learning

This week the children have been set maths learning in their Home learning books relating to number bonds.

Please support your child to complete their home learning.

Remember to sign in the home schoolbook when you have read with your child at home. We have been checking the books on a Friday and marking in yellow highlighter if your child has read five times that week.

They then are moved up the reading tree in the corridor.

We are trying to beat Emerald and Ruby class!!!!

Key Dates

Open afternoon

Tuesday 12 November @ 3.00pm

Thursday 14 November @3.00pm

Christmas performances

Monday 9 December @ TBA (PM)

Wednesday 11 December @ TBA (AM)
