## What have we been learning?

The children were all amazed when they arrived in our classroom on Tuesday. It has a very cold and icy feel to get us in the mood for our project "What discoveries will we make?" This term, we will be concentrating on the Arctic, we are all very excited about the explorers we will be meeting!

On Wednesday we had our 'WOW' day, the children came dressed as an explorer or inventor of their choice- we were very impressed with their speaking and listening skills as they told us why their chosen person was remembered.

### Next Week

In Maths, we are going to be learning about time, using o'clock, quarter past, half past, and quarter to as well as introducing 5 minute intervals.

In English, we will be using the book 'The Great Explorer' and making an extra page with a problem the character will need to overcome.

We will also begin to look at and name the continents and oceans of the world.

### Other News

A huge 'Thank you' from us all for all the thoughtful Christmas gifts and cards, we are very grateful.

We have set some Mathematics activities linked to what we have been learning this week on positional vocabulary.

Could you practise telling the time whenever possible, using all the times noted opposite.

Don't forget to email any comments in relation to your child's PowerPoint from last term.
