What have we been learning?

This week Jet class have been stepping into the magic box to go back in time. We were very lucky to have Mrs Lloyd's father in law come in and talk to us about his life when he was younger. He showed us photographs of his house, school, toys, clothes and the food he ate. We are going to use this information and the information gathered from our history homework questions to write a non-chronological report comparing the past and present.

In maths we have been using the bar model method to solve missing number problems about witches and wizards.

We have been looking closely at the work of the illusionist artist Rob Gonsalves in art, discussing how he created the illusions in his pictures and what we like about them.

Next Week

We are going to be using the poem 'The Magic Box' to write our own poems. We will be looking at alliteration, rhyme and noun phrases.

In art we will be developing our 3D art skills creating thumb pot cauldrons. We will be moulding our pots carefully using a variety of modelling skills.

In maths we will continue to develop our problem solving skills by applying the four main calculations (Addition, subtraction, division and multiplication)

Important information

Please ensure your multi skills forms are returned by Friday 27th April.

Multi skills festival – Thursday 3rd May (am)

Please check to see if your child has any learning to complete in their home learning books or any books to read on bug club.

Homework is being sent home this week. The children will be asked to learn the poem 'The Magic Box' as best they can from memory. The children will then recite the poem in small groups as one of the year 2 reading objectives.
