What have we been learning?

We all loved our WOW day on Monday. We were very lucky to have a visit from the Frampton Shanty Singers. We learnt lots of fun songs that the sailors would have sung as well as playing some fun games like trying to get the anchor up and even tug of war with some real ship rope.

In maths this week, we have been learning all about the vocabulary of greater than and have used this to compare 2 and 3 numbers together. We have also used the mathematical symbol to represent greater than.

In PSHE, we have used our class book 'The Singing Mermaid', to take part in some speaking and listening to think about reasons for and against why the mermaid should have joined the circus.

Next Week

In English, we will be introducing the children to adjectives and they will be using these to describe the character of the singing mermaid.

In science, we will be looking closely at our class goldfishes Norman and Rosie, to look at their different body parts and thinking what role they play to help the fish survive.

Other News

The children have been sent home with some phonics home learning this week.

Each week home learning will be sent home on a Friday and their purple home learning books will be collected in the following Thursday.

Next Monday 16th September, the children will be bringing home their individually common exception reading words. These will also be found in their purple home learning book. These will be tested each Monday and then new ones will be sent home.
