Pearl Class Newsletter

We have had a very magical start to the new term, arriving at Hogwarts last week! Once the children boarded the Hogwarts Express at platform 9³/₄, they were sorted in to their houses by the sorting hat. During the afternoon, we had a potions lesson, making colour changing potions and bubbling potions.

Last Friday, we also had a fantastic morning at UWE, trying out different sporting activities and having an interesting tour of the campus.

In maths this week we have been recapping different types of angle and learning how to use a protractor to measure and draw angles. We also explored a tangram puzzle to create different animals and objects which we will use to calculate angles on a straight line and in a whole turn.

Home learning:

- Read at least five times a week
- Mathletics – complete set activities each week
- TTRockstars
- Spellings – we have started to look at some different spelling rules and patterns and a list of spellings with the suffix –cious were sent home on Tuesday to be tested next Tuesday.
