

Pearl Class Newsletter

Term 2

Science: Movement of the Moon – the children were learning about how the moon moves around the Earth and answering the following questions: Why does the moon appear to change shape? Why do we only ever see one side of the moon? How long does the moon take to move around the Earth.

D/T: The children have finished constructing their moving solar system models and they are already to sell at the Christmas Fair.

English: We have continued our narrative extract, taking inspiration from our class book-A story Like the Wind.

Maths: Different types of angles: acute, obtuse, reflex and right angle

| Coming up next week Learning focused | Way to support at home (home learning) |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Maths P.E – Small Team Games and Gymnastics D/T – Evaluation of models English- Genre: Narrative Book: A story like the wind. Computing- Programming on Scratch Science – finish space models. | Home learning <p>TTRS- I have asked all the children to make sure they are doing TTRS each week as we are in our multiplication and division unit in Maths, it is very tricky if they don't have a quick recall.</p> <p>Spelling: le,el,al and il endings (continued as INSET)</p> |
