

Pearl Class Newsletter

14.06.19

In English this week we have been busy writing our own stories set in Ancient Rome. We have been working hard to apply all the skills we have learnt this year.

In Maths we have been revising properties of quadrilaterals, triangles and other regular and irregular polygons. Next week we will be solving problems involving time including calculating durations of time, converting units of time and reading timetables.

Over the coming weeks we will be beginning our final project which will involve making a large scale, whole class Roman mosaic. If you have any leftover tiles or tiling products we would really appreciate them.

Reminders:

- Continue to use TT Rockstars to practise times tables.
- Mathematics homework
- Read at least 5 times a week – try to choose some of the 50 recommended reads for Year 5. How many can you read before the end of the year?
- Pedestrian training – please remember to return permission form.
