Pearl Class Newsletter

Our dances on the theme of a volcanic eruption, which we have been working on this term, have been performed and filmed. They will be uploaded to Google Classroom so they can be enjoyed at home. We spent the final dance session of term using the Northern Lights as inspiration to create short, improvised dance routines in groups.

In English this week we have been writing poems about the Northern Lights using similes, metaphors and personification.

This week in maths we have been focusing on column subtraction method, revisiting exchanging and expanding on our understanding to find missing numbers in subtraction calculations.

Next term we will be writing stories in English and continuing to work on our calculation methods in maths.

It has been fantastic to share all of the home learning in class this week. There have been some excellent, informative PowerPoints, fact files, videos and models which have been confidently shared.

I hope you all have a brilliant half term break.

Home learning:

- Read at least five times a week
- Mathletics – complete set activities each week
- TTRockstars – Times tables are vital to many other parts of maths learning. It is therefore important that they are learnt and practised regularly.
- Spellings – 6 of the Year 5 and 6 words to be learnt each week. Tests and new spellings given on Wednesdays
