## WORD OF THE WEEK

Deceive

ENGLISH : Last week we learnt about painting pictures for the reader using metaphors and then applied this learning to writing poems about friendship .Here is one written by ML .

### Images of Friendship

*Friendship is a leaf blower that can blow your worries away ,*

*Friendship is a mountain that you keep climbing .*

*Friendship is two peas in a pod ,not separated or split ,*

*Friendship is a never ending book with a new chapter every day .*

*Friendship is an ice- cream sundae full of rainbow sprinkles and cherries ,*

*Friendship is a racetrack with ups and downs,twists and turns.*

*Friendship is a candle that never goes out,.*

*Friendship is a staircase – a new step for every special moment.*

*Friendship is a flower that doesn't stop growing,*

*Friendship is a powerful locket that keeps your greatest secrets safe*

*Friendship is an overflowing bucket of emotions.*

**MATHS:**We have now moved onto written calculations for short division .The Year 5 expectation is that all children will be able to divide a one digit number into a four digit number including remainders. The biggest hurdle at the moment isn't so much the process but the recall of division facts quickly, so I would suggest that this week it would be advantageous to log onto Daily 10- Division level 4 ( the children will know where this is).

**REMINDERS :** Please remember to encourage your child to read at least 5 times a week at home and to sign the reading record book for our check and reward on Friday of each week – thank you .
