

Pearl Class Newsletter

13.10.17

This week we were in charge of organising the MacMillan coffee morning which was also the launch for our Year of Computing. We split into group and each took on a different area to organise: cake selling, competition running, using animation, using LegoWedo, using probots and using Scratch. The children were fantastic and took on the responsibility well also demonstrating excellent computing skills!

In English this week, we have been learning about different types of complex sentences; looking at how we can change the position of clauses for effect. We have begun applying this to write non-chronological reports about Varmints which we will continue next week.

In Maths this week, we have been multiplying and dividing numbers by 10, 100 and 1000 including decimals. Next week we will be consolidating our learning of multiplication and division.
