09.03.18

Filming has begun! We have been working hard to film all of our different scenes ready to put together our 'Horrible Histories' films. It has taken a lot of perseverance and problem solving to work out how to make the best use of the green screen and many takes of each scene have been filmed so far!

In Maths we have been learning about decimals, practising adding and subtracting decimals of different sizes and solving problems involving decimals. Next week we will be continuing to focus on decimals, rounding to the nearest whole number and 1dp. In English we have written excellent biographies on Boudicca, incorporating many of the grammatical features we have been working on.

As part of our Science and PSHE we have been learning about puberty and all the changes we will experience as we get older. We have had some excellent discussion around this and have demonstrated great maturity. Next week we will be continuing to find out about the human life cycle – focusing on adulthood and old age.

We have had our second session of yoga this week, working on our core strength and flexibility.

## Reminders:

- Continue to practise spellings and times tables – we are doing fantastically well with these!
- Read at least 5 times a week

Project final outcome: **Wednesday 21<sup>st</sup> March 9.30 – 11am.** We will be sharing our 'Horrible Histories' style films and other learning from our 'Were the Romans Really Rotten?' project.
