

Pearl Class Newsletter

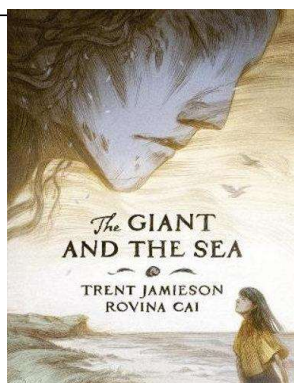

The children have settled very quickly into year 5 and I have been impressed by their enthusiasm for learning this week. Our project this term has a Space focus. We are starting by looking at our own planet and considering the issues our Earth is currently facing. We have a Climate and energy workshop next Tuesday morning in school.

Maths – Our first Unit of learning is Place Value up to a million

English – We have started our class book: *The Giant and the Sea* The children were very engaged in the story and able to relate the theme to current global issues.

Walking Home Alone: Now that the children are in Year 5, they are allowed to walk home alone provided a parent or carer has completed the walk home alone request form.

Coming up next week Learning focused	Way to support at home (home learning)
Geography – Climate change workshop Maths- Place Value to 1 Million, rounding English – writing character and setting descriptions Science – Forces Music-Motown P.E – Football and dance Art – Drawing unit	TTRS little and often is best Reading 5 times a week, some in school, some at home. Please sign your child's reading log ready for checking on Friday Mathletics weekly Mathletics has been set.
