

Ruby Class News

Well done to all the Rubies, we've made it to the end of term 3!

This week has been **children's mental health week** and we have shared stories and completed some mindfulness activities in class alongside the theme, my voice matter. All the children have had the opportunity to visit the ELSA room for a part of lunch time for further activities if they've wanted too. It's been lovely to see some of the Rubies going along to join in activities with other children.

In **English** we have working really hard on our mini outcome *What happens next?* The children have been learning the story, Toys in Space all term and this week story mapped and practiced retelling, with actions, their own versions before writing them. I have been really impressed with all the children for how much they tried their best in story writing. In **Boolean Maths** we have been learning about splitting and combining numbers into parts and the whole. The children have enjoyed using the counters and multilink cubes as well as rekenreks to support their learning practically this week. In **Geography** we have been learning about the countries of the UK with a focus on Scotland this week. The children enjoyed finding out some facts about Scotland and looking at our big map and flags.

In Computing we have been using all of our digital media skills from our learning this term to create circle pattern in the style of Kandinsky.

Coming up next week	Way to support at home (home learning)
<p>In English we will be starting our new text 'Lost in the Museum' where we will have a focus on History and how toys have changed over time</p> <p>In Maths we will be starting to learn about missing number problems eg. $6 + \blacksquare = 13$</p>	<p>Read 5 times a week</p> <p>Complete Mathletics</p>

Have a lovely half term break,

Mrs Grainger
