

Ruby News

The children used language like more and less using the hedgehogs this week. We transferred our knowledge of numbers into the wood on a number hunt and collected objects to represent the numbers. Some children found numbers more or less than others.

In Ruby this week the children have been developing their social and story skills in the ocean tray.

We have looked carefully at the shapes and colours of our faces this week.

Counting is always fun with dance moves!

I am looking forward to see you all at parents evening next week!

Miss Tyler 😊
