

Ruby Class News

It's been a lovely week in Ruby class with lots of fantastic learning going on! In **Maths** we have been recapping our addition skills and using this knowledge to solve word problems. The children have been working hard to spot the clues that tell them what they need to do. In **Boolean** we have been learning about the parts of even number ten and odd number 9. In **Phonics** we have been recapping our split digraph sounds (a-e, e-e, i-e, o-e, u-e) and have been writing some tricky sentences using some of these. In **Reading** we have been working on listening and answering retrieval questions about the text we have heard or read. In **PE** we had a visitor come to show us some inclusive boccia and curling activities which was great fun!

In the afternoons we have been doing lots of **Art** learning for our mini outcome, *What is in space?* The children have taken inspiration from artist Peter Thorpe and this week have created their outcomes with fantastic results.

Just a quick reminder to please book your child's lunch choices on scopay, there have been quite a lot forgotten this week and it takes up learning time sorting this in class.

Coming up next week	Way to support at home (home learning)
In Maths we will continue to look at addition word problems before always tackling subtraction problems. In English we will be writing our own story versions of the Toys in Space thinking about sentence structure.	Read 5 times a week Complete Mathletics (this wasn't set last week while I was poorly but has been set for this week)

Have a lovely weekend,

Mrs Grainger
