

Ruby News

This week the children spent time in the Life Bus with Harold the giraffe learning about how to live a healthy life! The children also spent time learning some of the body organs including lungs, heart, brain and intestines.

Also this week the children had a visitor in to talk about road safety!

Today the children had great fun dressed up with spots for children in need. They have had a stage set up in the classroom to create shows to help understanding of children in need. I will attach photos next week of the children in spots.

Dates
