

Ruby News

Last week the children had a brilliant time bug hunting in Redwood, learning different spring flowers along the way. We even spotted some deer footprints! Thank you to all the parent helpers who helped on the day the children loved it!

As part of our WOW experience to introduce our project, 'How do things grow?', we planted carrot seeds and green beans.

This week we have focused on counting in 2s so it would be great to see them practise at home. We will be continuing with 5s and 10s next week! Also in number we have been subvertising with our fingers to show numbers and recognise numbers on our fingers.

We had a visitor this week who will be joining us this term and next term to teach us BeatBus (music and percussion). This week we focused on singing with different pitch using our bodies to help remember when you go high and low. We started to follow rhythms through clapping.

Sports day is coming up on **21st May 2019** and you are welcome to come to watch and stay for the day on the field. You will have the opportunity to have a packed lunch with your child at lunchtime. School can provide a hot dog/veggie sausage packed lunch for your child if you wish on the day.

Our trip to the farm is also coming up **6th June**. If you would like to help on the trip then please let the office know.

Have a lovely bank holiday weekend!

BUG INFORMATION: Ask your child about how bees make honey! You could also ask how spiders make their webs!

Miss Tyler 😊
