Sports Day

The children enjoyed taking part in their races on Tuesday. We were very proud of all of them!

Learning

We have been linking our writing to our learning a lot this week. Lots of us are writing books about bug characters and making them into books. We have continued to be curious about creatures and some of us have built homes for bugs. In maths we have continued making numbers in different ways. At home, or while travelling you can help by practising mental recall of number bonds, counting in different ways or looking for different shapes.

Reading

I know it can be difficult to fit everything in, but reading at least 5 times a week is really important at the moment. Over the holidays please take a look at the keywords as well as these improve fluency in reading and writing.

Trip

On the first Thursday when we return to school we are off to Over Farm. We hope to learn more about growing fruit and vegetables. There is a packet of seeds in the green book for you to plant at home. They will love watching it grow and will be able to practise using their language of size. You could measure the progress if you want to take the challenge level of learning.

Have a brilliant week,

Sally Windmill
