

Topaz News

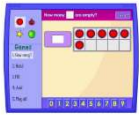

Dear All,

It has been a fabulous week in Topaz again this week. The children are amazing!

We had an exciting assembly on Monday. Andy from CBBC came for a visit! We had great fun

Maths

We talk lots about fluency in reading but it is also important that children grown fluency in maths too. To that end the goals for the end of the year are set around being able to recall quickly pairs of numbers that make 5 and 10. This is a good base for future maths. We are doing well with this in class but would

love your help.

You will find some maths next steps in purple books this week. Please give these a try.

Reading

I know life can get busy but I can't impress on you enough the impact that reading 5 times a week can have. Hopefully by this time in the year you have found a good routine for you but if you need help with this, be in touch. It really will make a huge difference.

I haven't put new phonics in purple books but keep going with common exception words but if short of time, put efforts into fluent reading of the phonic reader.

We have carried on with re-telling stories and doing puppet shows. We are also painting characters from our traditional tales.

<p>Coming up next week Learning focused</p>	<p>Ways to support at home (home learning)</p>
<p>- Sports day This is always a lovely event. Children to wear PE kit, sun cream, bring a hat. - End of term 5</p>	<p>- 5 times a week reading</p>

Have a super weekend,

Sally Windmill
