Learning

This week we have been linking our counting in tens to measuring. We have used this song to make sure we can all count in 10s fluently. We love it!

<https://www.youtube.com/watch?v=3qkgWbdHGCo>

We have compared our size with the size of sea creatures. We will carry on with this next week along with shape names. Measuring with tens and ones will link with the start of Y1 maths so it is very good for transition.

At home, please practise cube, cuboid, sphere, cone and cylinder shape names.

Sports Day

We have been practicing for sports day on Tuesday. Children are welcome to bring trainers.

The weather forecast is looking good. Remember that they will be in PE kit when applying sun cream. If the weather is sunny, hats and water bottles will also be essential.

Kind regards,

Sally Windmill
