

Topaz News

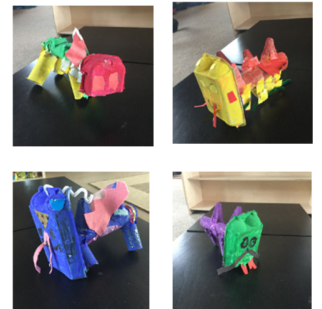

It was lovely to catch up at parents evening and journal share. I am super proud of their achievements

Dragon Hunt

Monday 1.4.2019

At 2pm

Dragon eye biscuits and drinks available for donations

Please try to make it to our end of **project outcome** on Monday. All of the dragons made by the children will be hidden around the school inside and out. The children have been busy preparing posters and will be helping to make the refreshments so that we can enjoy some fun time together. We will start at 2pm and end at 3.25 so that you can get signed out and meet us in the playground at the end of the day.

Just in case you are confused, our original plan detailed a den building session linked to homes but the children have been so inspired by their castle visit that I have tweaked the plan to accommodate their interest.

Our project next term will start with another visit to Redwood on 25.4.2019. This will be our **project WOW** day. The children will experience these throughout the school as they are an integral part of the school curriculum. While we are there, we will be looking for small creatures. More details of the project will be available at the start of next term.

Maths

Although we have explored addition and subtraction in mental maths without the children realising, we have now looked at the recording of both. I will prepare an information sheet about the methods we talk about so that you can help at home.

We will continue to build fluency skills. I am sharing this link which other parents are finding helps with number bonds, doubles, missing numbers and halves. If they can become quick with these to 10, it would really help them in future maths through the school.
