

Topaz Newsletter

Another busy week goes by, week four has been full of learning. This week we have been learning all about the planets in our solar system. We have been busy learning all about, and making, moon maps based on the story the marvellous moon map.

School Dinners:

- School dinners are a very popular choice in Topaz class and the children enjoy them. However, sometimes there can be meals that the children do not always enjoy, this can lead to them eating less at lunchtimes. To help this we ask that each week, maybe when reading one of their books, you sit down with your child to plan what they would like to eat for the week. This will ensure that the children get their favourite meal when it comes to lunchtime and know what they are having across the week.

Rockets at home:

- As we are now into our space project, we thought we would extend the opportunity for you to make a rocket at home with your child. This will be a wonderful opportunity for craft at home that can then be brought in to show to the other children. The ones that have been brought in have been excellent!

Recycling & Junk modelling:

- Next week, we will be starting a junk modelling project. As part of this we ask that the children bring in a long tube such as that from kitchen roll (please no toilet rolls). We will be using these to make rockets so if anyone has any spare, please do send these in as well.

Diary Dates:

- Journal Share – Monday 5th February 15:00-15:30
- Parent Meeting – Thursday 8th February 14:30-15:30.

We look forward to another amazing week in Topaz Class.

Mr Keeping
